

Please do not force any modification of Wisconsin's DO-NOT-Call law. It is nice to be able to relax during the evening without the unwelcome solicitations via telephone. I pay my phone bill, not the telemarketers and I should be able to decide who is welcome to use it. If you want to work on something really useful, figure out a way to curb the e-mail abuses. I get more than 150 a day and I cannot get them to stop.
